

Rooki - TWS earphones with ENC technology and ergonomic design

SKU: TEJZEARROOKITWSBTW

Perfect for extended use, these touch control earphones cancel out external noise for clear calls

THE PERFECT TRUE WIRELESS STEREO EARPHONES FOR EXTENDED USE

The **Rooki TWS earphones** have a minimal, refined **ergonomic design**, making them ideal for regular use throughout the day. Thanks to **ENC (Environmental Noise Cancellation)** technology, you'll be able to make crystal-clear calls so that your voice can be heard perfectly.

ENVIRONMENTAL NOISE CANCELLATION: ENC TECHNOLOGY WILL IMPROVE YOUR CALLS

The Rooki True Wireless earphones feature ENC functionality. This technology automatically recognises background noise, which can be so annoying when making calls. This particular system cancels out ambient noise so that the person you're calling can hear your voice **sharply**, with **no external interference**.

HOW THE WIRELESS EARPHONES WORK: PERFORMANCE AND FEATURES

These wireless earphones turn on and off **automatically** once removed from or returned to the charging base. They also pair with each other without you having to connect them.

They are perfect for connecting to PCs, tablets and smartphones. They are ergonomically designed, with **touch controls** to manage your music and calls. Their operational range is up to **10m** from the audio source, allowing you full freedom of movement.

A single charge guarantees up to **5 hours of consecutive use** and, as they come with **three pairs of silicone caps** (L, M, S), extended use will be a comfortable experience.

THE CHARGING BASE: CASE AND CHARGER

Once you've finished using them, you can store the Rooki earphones in the **250 mAh charging base**. When this base runs out of

power, use the cable with the **USB-USB-C** connectors included to connect it to an energy source and recharge it.

KEY FEATURES:

- True Wireless Stereo: the earphones automatically pair with each other
- 250 mAh charging base
- ENC technology for the reduction of external noise, your voice will be heard distinctly
