

TWS RNBEAT - Wireless Earphones in partnership with MTV

SKU: TEJZEARTWSMTVK

Semi in-ear headphones with Environmental Noise Cancellation (ENC) technology

JAZ and MTV: for real music lovers

JAZ joins forces with MTV to create iconic accessories for music lovers! They are distinguished by their **unique design** with the MTV logo and features designed to help you fully enjoy your favourite songs.

Connect them easily to your smartphone, tablet, or laptop

The **RNBEAT earphones** connect to your compatible devices totally **wire-free**. After the first connection, the earphones will automatically connect to the device. The signal remains stable even at a **distance of 10 meters**, so you can leave your device wherever you like. They are equipped with **True Wireless Stereo (TWS) technology**: they synchronize with each other perfectly and automatically.

Listen to music and make long calls

No matter how long your playlist is, you will have **6 hours of continuous playback**. What's more, the **built-in microphone** allows you to talk to callers during calls or register voice notes.

ENC technology allows clear calls every time

ENC (Environmental Noise Cancellation) technology reduces background noises during phone calls. The algorithms it uses allow you to call in environments that are not perfectly silent: your caller will always hear your voice crystal-clear.

Up to 28 hours of audio playback with the charging case

Power your earbuds anywhere thanks to the **300mAh** charging case. Simply place them inside and charging will start automatically. In this way, you can easily recharge the headphones when not in use, extending the battery life by up to 28 hours. When the base goes flat too, connect it to a power source using the cable provided. The built-in **lanyard** allows you to take them anywhere.

Built-in multifunction buttons

Touch controls on the earphones ensure optimal control over music and calls **without having to touch the connected device**. In fact, you can play/pause a song, change tracks, answer/end/reject a call, redial the last number and activate the voice assistant.

Key features:

- in partnership with MTV
- True Wireless Stereo (TWS) technology
- Operating range: 10 metres
- built-in microphone
- Environmental Noise Cancellation (ENC) technology
- 300 mAh charging case with lanyard
- multifunction touch buttons
- playback time: 6 hours
- playback time with the charging case: 28 hours
- charging time: 1 hour
- standby time: 150 hours

Contents include:

- 1 charging case
- 1 x USB-A - USB-C charging cable
- Instruction manual
