

FUN TRACK - wireless headphones in collaboration with MTV

SKU: TEJZHEADMTVK

Padded headphones with integrated controls: comfortable and designed for your music

JAZ & MTV for music fans

JAZ and MTV create iconic accessories for music lovers! They are distinguished by their **unique design** with the MTV logo and features designed to help you fully enjoy your favourite songs.

Connect it easily to your smartphone, tablet, or laptop

FUN TRACK **headphones** are totally **wireless**, so you can connect them to your compatible devices wire-free. After the first connection, the headphones will automatically connect to the device. The signal remains stable even at a **distance of 10 meters**, so you can leave your device wherever you like. You will also find a **3.5mm jack port** to connect headphones, for example, even to an MP3 player without a wireless connection.

Listen to music and make long calls

No matter how long your playlist is, you will have **24 hours of continuous playback**. What's more, the **built-in microphone** allows you to talk to callers during calls or register voice notes. When they run out of power, connect them to a power bank or charger via the included **USB-A - USB-C cable**: they will be charged again in 2 hours.

Built-in multifunction buttons

The controls on the right-hand side ensure optimal control over music and calls **without having to touch the connected device**. In fact, you can play/pause a song, change tracks, increase/decrease the volume, redial the last number, change the equalisation, activate the voice assistant as well as turn the headphones on/off.
